## Education

2019-2024

**Computer Science Degree**

ESPRIT

2014-2018

**Bachelor of science**

White fathers

## Expertise

- C++ / C# / Java / Springboot / .NET Core
- PHP / Symfony / Laravel
- ReactJS / AngularJS / ReactTS / TailwindCSS
- MongoDB / MySQL / Postgresql
- Django / Python / Flask
- Microservices
- DevOps (Jenkins, Docker, Nexus, Sonarqube, Grafana)

## Language

- Arabic (monther tongue)
- French (C1)
- English (C1)
- German (B2)

# Zeineb Haraketi

## FullStack JS Developer

A fresh graduate from ESPRIT in Computer Engineering specializing in web development, I am driven and passionate about emerging technologies. I welcome opportunities to expand my expertise and embrace new challenges.

## Projects & Experiences

### ○ 02/2024 - 08/2024 at GEXPERTISE

A subscription web application powered by ML

#### Atlas-Patrimonial

The project aims to develop a robust application for efficient subscription management, featuring a scalable payment system and advanced forecasting capabilities. It was developed with Flask, React TS, TailwindCSS, Swagger Api, Restful API, Stripe, Dante AI, BERT and ML.

### ○ 09/2023 - 11/2023 at ESPRIT

Deploying a web application (Devops)

#### Kaddem

This project aims to establish a complete CI/CD pipeline, integrating Jenkins, Docker, Nexus for storage, test automation (JUnit), and tools like Sonar, Grafana, and Prometheus for analysis and monitoring.

### ○ 07/2023 - 09/2023 at Webmedia

A bookstore web application

#### BOOKVERSE

An application intended for the librarian and bookstore, it merges the worlds of the library, gaming and cinema to offer an immersive experience. It was designed with the MERN stack (MongoDB, ExpressJS, ReactJS, NodeJS)

## Education
